Subject: 5g mast

To: <planning@adur-worthing.gov.uk>

Hello Adur planning , my name's Damon . As a local resident of the Worthing and Durrington area I'd like to bring your attention to the latest proposal for yet another 5g mast, this time in Durrington at : Telecommunication Site Bn0914 North Of Durrington Community Centre 2 Romany Road Worthing West Sussex , and for you to note my objection . These masts are ruining the beauty of our town and creating an atmosphere of a military instillation rather than a well loved seaside town . So please take into consideration this objection .

All the best for now

Damon Goodchild
