I would like to object to AWDM/0737/26 because

- 1= The entry and exit it set back in bushes . It is an unsafe entry and exit . There has already been close incidents with cars pulling out badly in front of the traffic passing trying to floor it because they are sticking dangerously out in the road so they can see. Also we were nearly hit when a car pulling out pulled into the opposite lane ( we were driving towards Ferring ) and veered in front of us .
- 2= There will be noise pollution especially if they have a large amount of people using it and if they do events .
- 3= overnight stays will bring camper vans parking on the road during the day and the night which was banned by WSCC.
- 4= many appeals have stated that this is agricultural land not housing development land having be rejected several times since 1951 to the present day .
- 5= Extra costs for cleaning up the grass beach side . Because if they use glass or plastic glasses and good wrappers and containers will make there way across the road .
- 6= it's a local wildlife site .
- 7= too much traffic congestion when exiting and entering on a road already packed with parked cars and motor homes ( that are illegally parked and never get moved on )
- 8= The extra camper vans already dispose of their toilet cartridges in the sea or in the fields now . What will it be like when there's more of them .
