In reference to the above planning application on the Goring Gap, as a local resident I have the following objections:

It is contrary to the local plan which is designated as a Local Green Gap, specifically not available for development of any sort.

It's incompatible with the sites designation as a local Wildlife site.

Already this site has been made a storage area for vehicles, horse boxes and containers, blighting the gap with an eyesore.

Over night accommodation for camper vans is contradictory as WSCC has already banned vans from parking overnight on the road.

This site would also lead to yet further increases in litter and use as a general dumping ground negatively affecting biodiversity.

Planning applications for housing were refused by WSCC as far back as 1951 & 1954 and upheld on appeal based on impairing effective agricultural use.
Subsequent applications & appeals have all been rejected.

Best Regards
Simon & Katie Watteau
