Proposal, Site and Surroundings

The application refers to a small to medium sized mature Yew tree located near the West side of the listed building Tudor Court, Richmond Road. The tree is a part of the local landscape and makes a contribution to the character and visual amenities of the Richmond Road Conservation Area.

Consent is sought to reduce radial spread Yew tree T5.

The reasons for the works are primarily in the interests of light issues and amenity value.

Consultations: None.

Representations: None received.

Relevant Planning History

1976: Part 10 Listed Building 21st May 1976.

1995: Worthing Tree Preservation order Number 41 of 1995 confirmed on 04/12/1995.

1997: The property is within the Richmond Road Conservation Area XV designated by the council on 29th April 1997.

2023: Application for consent under Worthing Tree Preservation Order No.41 of 1995 to reduce crown height by up to 2.5 metres, and reduce radial spread by 1 metres to 2.5 metres, one Magnolia tree T1.

Planning Assessment

The tree is a medium sized mature Yew growing in the rear garden close to the arched gated dividing wall on the Western side of the main building. The tree is part of the area, and can be seen from the front driveway of the property.

The tree has a compound single stem to 1 metre, where it begins to separate, with the stems becoming fully detached from 3 metres. The mostly ascending stems, and laterals form a wide array

close to the boundary wall and the main building. The main crown is dense and wide spread with some slightly over extended laterals.

The proposed works are to reduce radial spread by up to 2.5 metres. The works are to contain the spread of the tree, abate any possible future nuisance, and allow more light and air to pass around the crown.

These works in my opinion would be relatively minor in relation to the overall size, spread and crown form of the tree and would not significantly or adversely affect its appearance, amenity value, or its contribution to the character of the Richmond Road Conservation Area.
