

Dear Sir or Madam

It was unable to send this objection to the above Planning Application due to issues with Worthing Borough Council's Planning portal.

I am sending this e-mail to object to Planning Application AWDM/0737/26 as the proposed use of the plot on Marine Drive does not fit in with the character, and would detract from the visual appeal of the Goring Gap, and the area's designation as a Local Wildlife Site. For example, vehicles, shipping containers, food and drink stalls, toilets, animals for entertainment and a children's play area are likely to cause traffic congestion and noise, and be detrimental regarding biodiversity which needs to be improved in the area.

Camper vans parking overnight could easily lead to the overnight parking of motor homes on the carriageway, which I understand West Sussex County Council has prohibited.

I also believe that the Local Plan has designated the area as a Green Gap, not to be developed.

I hope these comments will contribute to a decision to reject this planning application.

Yours faithfully
Nicola Nathan
