Dear Mr Barnett;

The proposed business at 15 east East Street intends to trade mainly as a modern day café. The serving of good quality coffee, cold and hot Italian snacks (as opposed to proper meals) will be the main services proposed to locals of shoreham. Leather seats, tub chairs, free wi-fi, and access to daily papers will provide the clientele of Shoreham a much needed luxury.

Following the letter of Mrs Paula Mitten, and the recommendations of Mr Nigel Dawson, I can assure the committee that compliance with building and environmental concerns will be observed at all times. I have in this regard altered the plans to include two extra toilets and staff changing room. The plan shows a small kitchenette designed not to serve a purpose of restaurant but rather a preparation area for light baking, Paninis, salads, et c.

I hope therefore you look at my application for change of use favourably.

Yours sincerely,

Imed.
