Subject: AWDM/0629/26: Courtlands

Hi Jo,

Am I missing something here with the MUGA. The justification report reads:

Multi-Use Games Area (MUGA)

The proposed small enclosed MUGA is intended primarily to provide a safe space for structured play and movement during periods of poor weather. At present, the school has no suitable covered or enclosed outdoor provision, which significantly limits pupils' access to physical activity during wet conditions.

For pupils with ASC and anxiety, regular movement and predictable physical activity are essential for regulation and wellbeing. The MUGA would:

- reduce pressure on internal spaces during breaks;
- provide structured, supervised activity;
- support pupils' physical and emotional health.

Looking at the plans the MUGA is open to the elements?

There are basketball rings and basketball bouncing and hitting the backboard is fairly noisy. It is not clear what type of surface will be on the MUGA or what the surrounding fencing is, but it does not look solid.

We will need an acoustic report for the MUGA so we can take an informed view.

Regards
