Thank you for your recent interest in Benchmark Windows Ltd and Origin.

Dear Graham

Following your enquiry, we have pleasure in providing you with our quotation to supply and install an Origin two pane bi-folding door and aluminium window to the front of the "Piston Broke"

As you will appreciate this is a slightly different installation for us, and it will obviously remain very much subject to survey, but I thought it will be good at this stage to establish some costings in order to see if we are in budget for this project.

Here at Benchmark Windows Ltd, we're proud to be specifying Origin – the UK's leading manufacturer of aluminium doors and windows.

As all of Origin's products are completely bespoke, it means that together, we can make your project something special and truly unique, tailored precisely to your functional as well as stylistic requirements.

From the size and colour through to the hardware, you're in control.

Designed to perform and built to last, all Origin products are exceptionally crafted in the state-of-the-art Buckinghamshire based factory and come with an industry-leading guarantee of up to 20-years for absolute peace of mind.

After our preliminary discussions, we're delighted to outline the following specification.

For additional information or to take the next step in turning your house into an Origin home, contact us today on the details above.

We look forward to hearing from you.

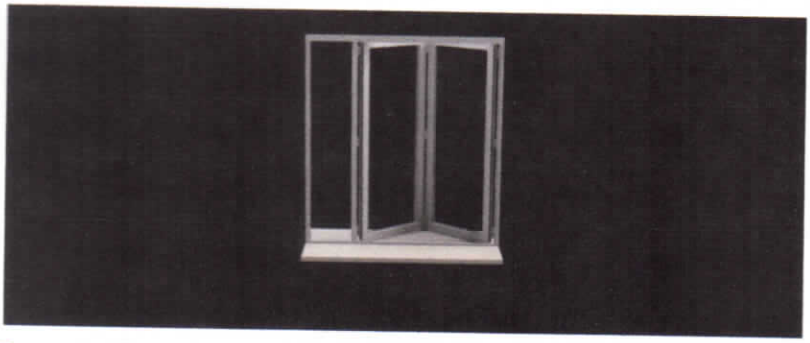

Yours sincerely,

Alan Dreja

Benchmark Windows Ltd

Doors in your project

Door title:	Bi-fold door 1						
No. of doors folding left:	0	No. of doors folding right:	2	Size (w x h):	2400mm X 2100mm	Quantity:	1

Why Origin?

Origin are the UK's leading brand of bespoke aluminium Bi-folding Doors, Residential Doors, Inline Sliders and Windows. Now award-winning and operating internationally, Origin began in 2001 as a family company, dedicated to the design, creation and manufacture of the best quality products, that are backed by uncompromising levels of service.

Therefore, by choosing us and Origin, it means that we can offer you unrivalled product quality, unparalleled service and unbeatable lead times.

British Engineered & Manufactured

Origin products are exclusively designed and manufactured in the state-of-the-art Buckinghamshire based facility. The precision engineering and expert production techniques ensure you of exceptionally crafted products that have been designed to perform and built to last.

Up to a 20-Year Guarantee

Due to the rigorous quality testing endured at each stage of the manufacturing process, it means that Origin products leave the factory at a consistently high standard. As a result, Origin offer an industry-leading guarantee of up to 20-years for optimum peace of mind.*

Premium Grade Aluminium

Extremely strong, yet weighing 67% less than steel, Origin manufacture using a premium grade aluminium. Offering innate strength, flexible design possibilities and optimum longevity, aluminium brings the benefits of being low in maintenance requirements, energy efficient and highly durable.**

Inspired by Colour

With over 150 RAL colour choices and the option of a matt, gloss or satin finish, Origin ensure there's a colour scheme to suit every home. Plus, there's the option of having dual coloured frames, giving you the ultimate freedom of choice.

Unbeatable Lead Times

Origin offers an unbeatable lead time for its doors and windows. Building projects can be prone to delays, but with Origin, you specify when you want your doors and windows delivered. From here, Origin will manufacture them according to your schedule, even if that's for the next day.

Unity in Style

It can be a balancing act trying to create a home that maximises aesthetic appeal without compromising safety and thermal performance. Origin products, however, deliver both. Using a similar style profile, the Origin Bi-fold, Residential Door and Window are designed to complement one another for maximum kerb appeal.

Ultra-Secure

A home isn't a home without safety. That's why Origin make use of some of the most sophisticated locking technologies. Doors can feature an industry-leading and completely unique 8-point locking system, which conforms to all of the latest security standards, whilst the OW-70 and OW-80 make use of the renowned Nemesis and Yale Encloser lock respectively.

Guaranteed to Stay Looking Great

To give it a flawless finish, the aluminium that Origin manufacture with, is coated with the highest grade powder available. The finish is extremely hard-wearing yet smooth to the touch. It's also highly resilient to the elements, ensuring the products keep their pristine looks.

Thermal Efficiency

Designed to keep a property warm in the cooler months and cool in the summer months, Origin products make use of advanced thermal break technologies and weather tight seals to ensure superior thermal efficiency all year round. The OW-80 can also be upgraded to include Aerogel for an astonishing energy rating of A++.

Family Friendly

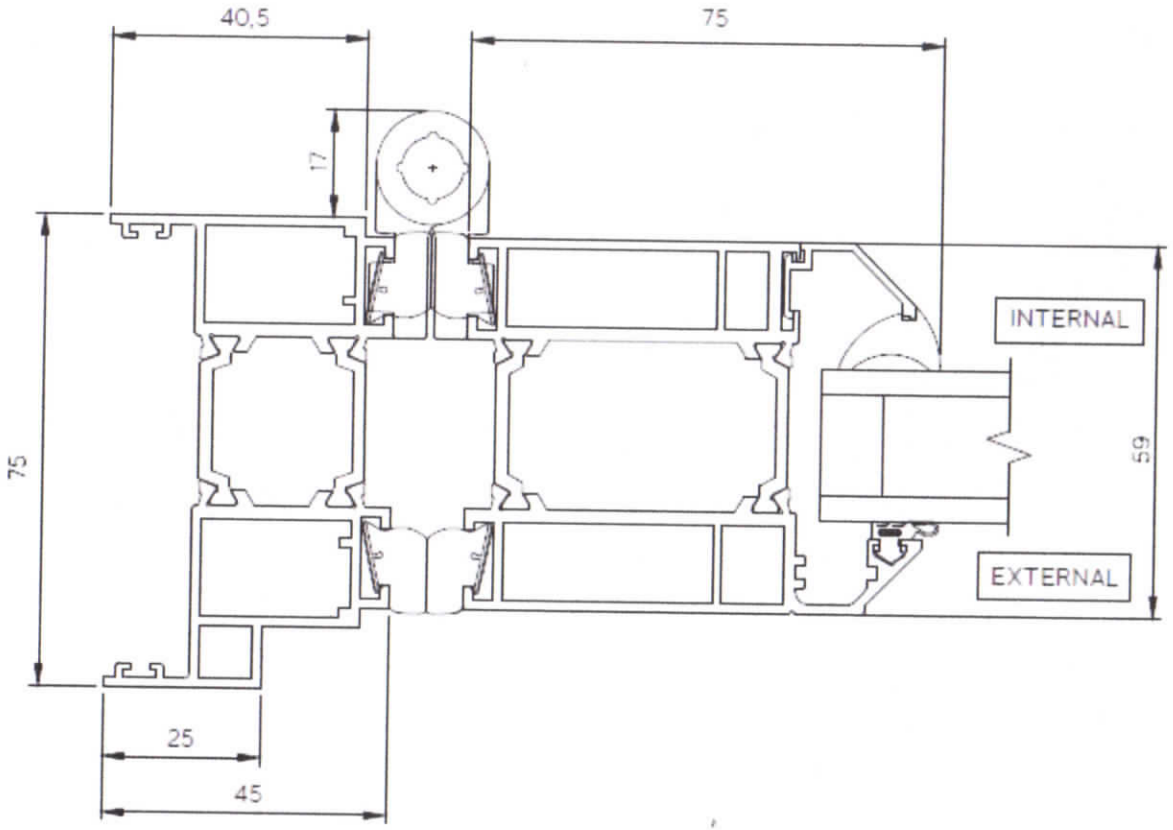

Origin products have been designed with thoughtful features to provide benefits for all of the family. From finger safe gaskets on the doors, through to a restrictor hook option on the windows, they're guaranteed to keep your loved ones safe and secure.

*Guarantee dependent on where the products will be installed.

**More maintenance will be required in certain areas. See https://origin-global.com/terms-and-conditions for details.
