Good morning

As Worthing residents we refer to the above application for a BT Street Hub.

We believe the above could create a visual distraction to passing traffic and those who are trying to find a parking space in the area. It would also add to the street clutter in the locality.

Health concerns - it is not clear from the application as to what exact technology is to be used for the above proposed hub. We understand you do not take health concerns into consideration, and refer to a recent case involving Cheltenham Borough Council which suggest health concerns could indeed be of note - there are many businesses close to the hub, along with some residential properties.

We therefore submit our objection to the above.

S Jeffery/B Blair
