Part Walk	0	0	0	0	0	0
Other	0	0	0	0	0	0
Totals	9.5	100%	9.5	100%	3	30%

Comments were made on survey results about bus timetables and that when an attempt was made by member of staff to use bus it just did not fit in with working hours often making staff member late for work or far too early.

English weather can have a major impact on people that walk and cycle.

Customers visiting the premises are limited we tend to visit the customer's premises.

Survey carried out June 2013.

Promotion of sustainable transport

We strive to promote achieve sustainable transport and how we can achieve this through ways of getting to and from the workplace.

Therefore we will promote car sharing by our employees and also if this is something that can be carried out by car sharing with other businesses within the Industrial Park. We will advertise on our staff notice board www.carsharesussex.com which provides a FREE matching service for all those who live, work and travel in and around the county. The site matches potential partners as a driver or passenger. By sharing the commute to work with just one other person the average car-sharer can save nearly £1,000 per year.

Bus and train time tables will also be available on the staff noticeboard and any changes to the timetable advertised.

Our Objectives

To encourage staff to use other forms of transport rather than car and by making this information available we hope that we are able to do this.

Next survey June 2014
