ADUR DISTRICT CONSERVATION ADVISORY GROUP

MINUTES

of the Group's consultation via email week ending 9th August, 2013.

Participants: Messrs. D. Donaldson, G. Leigh, R. Richards & Mr. Gillespie and Mrs. B. Ferrers-Guy

Application Nos: AWDM/0755/13 & ADWM/0770/13 – according to web site these two applications have already been "passed" by A.D.C. Planners. Re: AWDM/0755/13 the question arises – since when did this application fall within the remit of delegated powers without first coming before ADCAG?

AWDM/0759/3 AWDM/0780/13 AWDM/0861/13 – unanimous approval

AWDM/0816/13 - members found it difficult to pass judgement on this application due to total lack of information & the absence of the photo referred to by applicant. Members ask that more information is given by applicants in such cases.

AWDM/0827/13 & AWDM/0828/13 – En masse all these signs are overkill on such a small property. The design of the cartoon characters are more appropriate for a children's nursery instead of a veterinary surgery. It is appreciated that signage is important for this new business. However the design & size should be more in keeping with such an old & attractive building.

Beryl Ferrers-Guy
