to fell and replace one Ash tree of Group G2 at Fairfields 15 Broadwater Road Worthing West Sussex

I wish to support this application on health and safety grounds. The tree overhangs my back garden where it adjoins the end of the car park at the back of Fairfields. It has begun to drop sizeable pieces of branch which could be a danger to people or property at either address. I understand the tree is suffering from ash die-back disease so that the felling, while unfortunate, appears to be necessary. It is good that it will be replaced.
