Dear Sir/Madam,

Proposal: Two storey side extension.
Site: 1 Lisher Road, Lancing BN15 9EY

Thank you for your correspondence, please see our comments below regarding the above application.

Existing Water Main - tree, buildings, assets within stand-off distance

The 100 mm diameter water main requires a clearance of 3 metres on either side of the water main to protect it from construction works and to allow for future maintenance access.

No excavation, mounding or tree planting should be carried out within 3 metres of the external edge of the public water main without consent from Southern Water. All existing infrastructure, including protective coatings and cathodic protection, should be protected during the course of construction works. Please refer to: <https://www.southernwater.co.uk/media/st5orjvm/stand-off-distances.pdf>

Condition

In order to protect water apparatus, Southern Water requests that if consent is granted, the following condition is attached to the planning permission; The developer must agree with Southern Water, prior to commencement of the development, the measures to be undertaken to protect/divert the public water supply main.

Due to legislative changes effective from 1st October 2011 regarding the ownership of sewers, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction work, an investigation of the sewer will be required to ascertain its ownership before any work commences on site. If this happens, please call our Customer Service Desk on 0330 303 0119.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)
