Please print your name: ALAN BAKER OF BAKER ASSOCIATES.

Certificate under Article 7 of the Town and Country Planning (General Development Procedure) Order 1995

If anyone else owns the land or part of it, you must fill in Certificate B, which you can get from the Planning Section. You must also tell the owner of the land about this application by serving a notice on them. If you own all of the land, you must fill in Certificate A below.

Certificate A

I confirm that:

- Nobody except the applicant was an owner of any part of the land involved at the beginning of the period of 21 days before the date of this application; and
- none of the land this application relates to is an agricultural holding or part of an agricultural holding.

Signature: [signature] **Date:** 02/04/07

Please print your name: ALAN BAKER OF BAKER ASSOCIATES.

Design & Access Statement No.2 Feversham Close, Shoreham By Sea.

Current Position

The house is a single storey unit which has three bedrooms but by today's standards is not quite big enough for a family and it does not have all the facilities. The property is occupied by a local school teacher, his wife and two young daughters. They are very involved in local activities, especially sea related. The house is well placed for the children's schools and they obviously do not wish to move.

The current porch is too small to cope with entry to the house in winter weather and the present kitchen/breakfast area too small for family living. There is a sub-standard W.C off the side access from the kitchen so the family bathroom is at present the main facility.

Proposal

When the houses were built in Feversham Close the garages were placed at the rear of the houses. During the intervening years cars have got wider and with projecting tile window cills it is virtually impossible to reverse out of or into the garage. As can be seen most people have paved over their front gardens and park there where there is plenty of space.

As the side access way is not therefore used except for foot traffic to the rear garden we propose to make use of this space to provide en-suite shower rooms to the main bedrooms. This in turn means that the W.C. off the kitchen can be removed and the existing breakfast area can be extended to provide a good sized family room where children can be supervised from the kitchen. The porch will be replaced with a slightly larger structure to accommodate wet coats and boots in winter.

Our clients have shown these proposals to their neighbours, either side of them who have no objections to the scheme. We have proposed flat roofed extensions so that the property to the north will not lose any sunlight. We have also ensured that there will be no overlooking of neighbouring properties and that the extensions will have minimal impact.

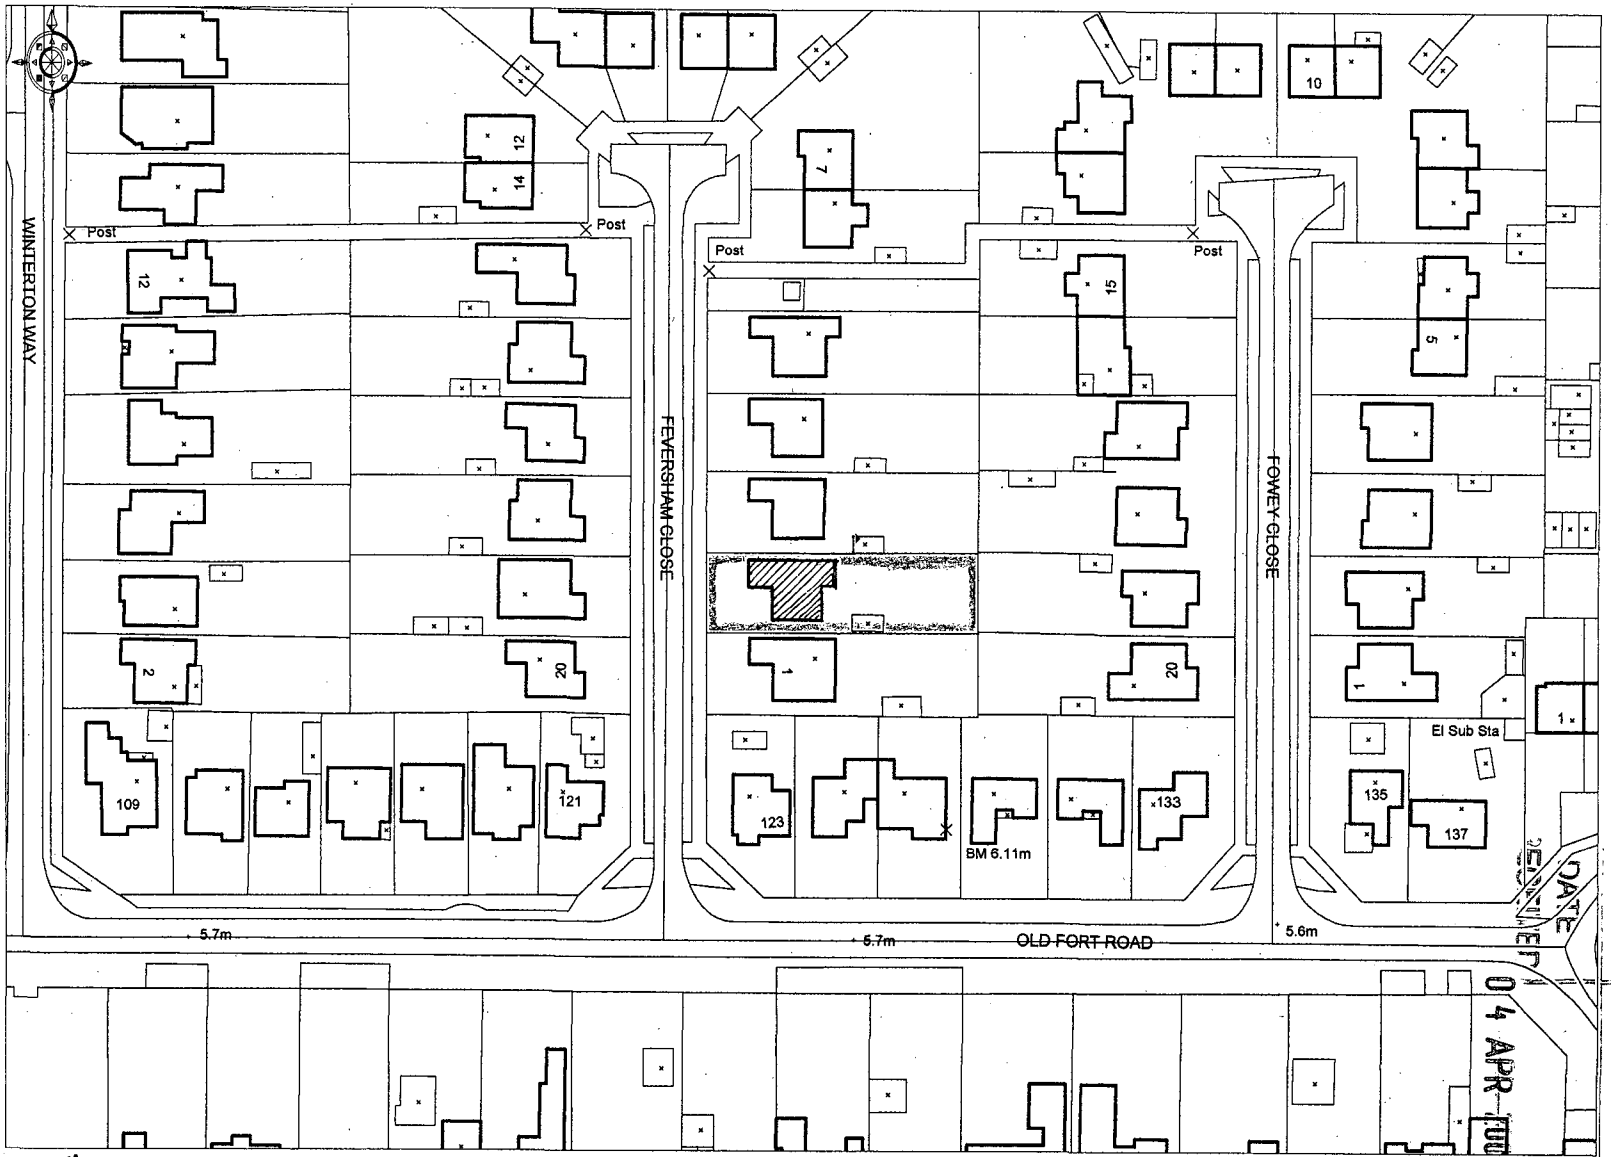

All materials and building details, such as pointing, will match the existing. Heating and insulation standards will be improved to reduce carbon emissions and only sustainable timber will be used.

We believe that our proposals will bring this house up to date to meet current standards

Alan Baker ARIBA. FBEng. FAMS.
