Dear miss Barker,

Thankyou for sending the copy of the amended plan for the proposed building : Royal Navel club,Tower Road,Lancing.
I have no problem with the design change of the appearance of the front of the building.
But am a bit concerned as reading the plans properly there is no mention that the windows at the main entrance (west side) will be non-opening or have obscured glass, you reassured me the last time we spoke that they would be!
Reading the plan description of the doors and windows it just states double glazed, the plans are very detailed in what materials etc. they would use but there is no mention of this at all.
So is this still to be?

Yours sincerely
Miss D.Standen
