Subject: AWDM/0479/13 - Attn Matthew Porter

Dear Mr Porter,

I have been handed your letter to the owner/occupier of 20 Faversham Close Shoreham-by-Sea as he has asked me to seek some further information regarding the above application.

By way of background, the owner of 20 Faversham Close is Mr William Earl and he is a 98 year old gentleman who lives alone. While he has full mental capacity, he does require assistance in some matters and it is for this reason that he has passed this letter to me. I am a neighbour and friend.

Mr Earl believes that the application may relate to the building of a new wall 1.8 metres high along the rear boundary of 121 Old Fort. However, I note that the application is for retrospective consent and therefore could be related to the wall that has already been built along the side and rear of the property.

It would be helpful if you could confirm which it is, as if it is the former, Mr Earl has concerns about the height of the proposed wall as it will obstruct the visibility from his drive onto Faversham Close; will be overbearing; and will not be in keeping with the open front gardens in the rest of the close.

I look forward to hearing from you.

Regards,

Liz Coward
