Dear Sir/Madam,

Proposal: Change of use of land to provide 3 no. glamping bell tents and services block with associated driveway and parking.
Site: AWDM/0525/23: - Land East and South of 1 To 8 Stocks House, West Street, Sompting, West Sussex, BN15 0AP.

Thank you for your letter dated 27/06/2023.

Southern Water would not support the proposals for private wastewater treatment works in the presence of public foul sewerage network in the close vicinity of the development site. The foul sewerage shall be disposed in accordance with Part H1 of Building Regulations hierarchy.

It may be possible for the foul flows from the proposed development to be connected to a nearby public sewer, and the applicant shall investigate this option. Southern Water requires a formal application for a connection to the public foul sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

The Environment Agency should be consulted directly by the applicant regarding the use of a private wastewater treatment works which disposes of effluent to sub-soil irrigation.

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.
