

Dear Sir/Madam

OBJECTION ON GROUNDS OF SANITY

-----

I have lived in road since 1988 and this developer has been the sword of Damocles over my head from day one. He has over developed Southview road to the max and this last little plot of greenery he has been determined to destroy I believe this is a personal vendetta for him. It has been ear marked "pension fund" which beggars belief as he is already a multi muti millionaire. The rental income from his latest development Somerly gardens is £13,000.00 per month alone !! And he owns many more properties in the street.

This development will be built on garden grabbed land (against government guidelines) and is

doing nothing to help the country's housing crisis as none of it has been offered as social housing.

In fact none of his properties have It's just for pure greed with no consideration for the neighbours

with whom he has made no attempt to engage. There are plenty of brown field sites around. He should go

and buy one of these instead of trying to ruin our lives. My garden is already underwater, I can't start

gardening until march (the same each year) but worst of all is if this goes ahead it will loom large

(because he likes to build them tall) over looking my garden and straight into the back of my house.

I have listed time after time the solid facts why this shouldn't be allowed to go through i.e flooding, needing the

green space to soak up the noxious fumes from the busy A272 at the top of the road (already above legal limits), danger to

children with an extra entrance, and how on earth is a fire truck going to get through that tiny entrance ! Loss of privacy,

light and not in keeping with the surrounding architecture, loss of sense of space and greenery, loss of biodiversity and our

wonderful wildlife (bats, stag beetles, slow worms, foxes, hedgehogs, birds)

But I mainly wanted to get across the stress and sense of foreboding he makes us live with CONSTANTLY because we always know

he's going to come back with another plan. By the way he lies on his application - ticking no - against the question is the

area prone to flooding?

So this an objection on the grounds of 38 years of affected mental health and the other impacts he is having on our lives

Kind regards

Sarah Matson
