Dear Planning Team,

Worthing Society Consultation Responses.

Please find attached our Consultation Responses which have been assessed by our Heritage Team

I apologise for the delay in our reply which has been due to Committee illness.

Regards

Susan Belton

Worthing Society Chair.

WORTHING SOCIETY CONSULTATION RESPONSES.

AWDM/0980/26 Listed Building Consent for Proposed Replacement of Existing Ground and First Floor Leaded-Light Windows on the East and South Elevations with Painted Timber Casements
LOCATION14 Smugglers Walk Worthing West Sussex BN12 4DP.

In summary and taking into account the Heritage Statement, previous approvals and the replacement of some of the windows the Society does not object to this application.

AWDM/1082/26|Advertisement Consent for installation of a non-illuminated sign written fascia sign, non-illuminated replacement side elevation sign and internally applied stained-glass style vinyl window graphics.

and

AWDM/1073/26 -Listed Building Consent, new book shop vinyl graphics to the windows of the shopfront.
Location: Warwick Street, South Street Conservation Area, Worthing.

In summary the Society does not object to the proposals.

AWDM/1134/26|Listed Building Consent for demolition of existing rear extension and construction of new single storey rear extension.
Location: Number 22 West Street Worthing.

We could not locate the proposed drawings. However we don't have any issues with the proposals based on the description The extension would not be visible from the street and in addition would be subservient to the main existing property. From the description the proposed works appear similar to the approved neighbouring extensions.

Therefore the Society has no objection to the application.
