Comments Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I would like to voice my support of this application. I am a close by neighbour and from my house can see into the garden of this property. The property used to have a conservatory and in my opinion, looks incomplete now without one. The immediate neighbour has a full size conservatory and I believe the addition of the planned conservatory to no2. would enhance the look of the row of properties. I must also comment that I believe this is a massively important, if not vital addition to the house for the owners as I am aware that their inability to now use the stairs is impacting negatively in their quality of life, and the sooner this conservatory is agreed and built, the sooner the owners can enjoy some increase in life quality. I support the application wholeheartedly.
