Dear Mr Barnett,

I am writing to register my objection to the proposed dormer construction on 9 Queens Place, Shoreham-by-Sea. I registered objections to the same sort of construction at the same address in 2018 (AWDM/0491/18) - which application was subsequently turned down by yourself.

This is a brief preliminary letter to make sure that my objection is registered by the deadline. I am unable to write at greater length at this moment, as I am only recently returned from overseas, and have many things to see to. But please be assured that I will set out my reasons in detail within the next few days, hopefully before the deadline.

I note that I was not personally informed about this planning application, though my house is only two doors away from number 9. I believe that this runs contrary to a long-established decision of the Council/Planning Committee that neighbours of such propinquity to a proposed development should be afforded the courtesy of a personal notification about it.

I should like to state at this stage that I would support any request that a decision about this application be postponed until it can be discussed at a full meeting of the Planning Committee.

I shall be sending you my specific and detailed objections as soon as possible.

Thank you for your help.

Yours sincerely,

Michelle Martindale (Mrs).
