Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

Following the discovery of Asbestos Containing Materials (ACM's) it is necessary to temporarily remove and reinstate the existing 600 x 600 suspended ceiling and grid to allow for the removal and disposal of ACM's bonded to the existing lath and plaster secondary ceiling. This secondary ceiling is not intact with damaged areas allowing contaminated particles to migrate into the existing floor void. As a consequence of the secondary ceiling tiles being bonded to the existing lath and plaster ceiling it will be necessary to remove the lath and plaster ceiling to remove all contaminated materials. the ceiling will then be reinstated with Fire resistant board to maintain the required fire compartmentation.

External fabric repairs & maintenance which include but not limited to:

Remove vegetation from parapet gutters, clean and repair cast iron gutters and downpipes, re-fix dislodged slates, replace missing or damages slates with reclaimed slates to match existing in size texture and colour, reinstate loos or missing lead flashing & gutters. Remove vegetation from chimney, make good flaunching. Dormer windows to be inspected once safe access has been provided, together with structural inspection of visible cracking to elevations. removal of modern roof lanterns at ground floor level and roof infilled. lanterns are not visible internally due to suspended ceiling.
