12. Foul Sewage

Please state how foul sewage is to be disposed of:

- [x] Mains sewer
- [ ] Cess pit
- [ ] Septic tank
- [ ] Other
- [ ] Package treatment plant

Are you proposing to connect to the existing drainage system? [x] Yes [ ] No

If Yes, please include the details of the existing system on the application drawings and state references for the plan(s)/drawing(s):

07078-001

13. Assessment of Flood Risk

Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary.)

[ ] Yes [x] No

If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)? [ ] Yes [x] No

Will the proposal increase the flood risk elsewhere? [ ] Yes [x] No

How will surface water be disposed of?

- [ ] Sustainable drainage system
- [x] Existing watercourse
- [ ] Soakaway
- [ ] Pond/lake
- [ ] Main sewer

14. Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

b) Designated sites, important habitats or other biodiversity features:

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

c) Features of geological conservation importance:

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

15. Existing Use

Please describe the current use of the site:

DWELLING

Is the site currently vacant? [ ] Yes [x] No

If Yes, please describe the last use of the site:

When did this use end (if known)? DD/MM/YYYY (date where known may be approximate)

Does the proposal involve any of the following:

Land which is known to be contaminated? [ ] Yes [x] No

Land where contamination is suspected for all or part of the site? [ ] Yes [x] No

A proposed use that would be particularly vulnerable to the presence of contamination? [ ] Yes [x] No

If you have answered Yes to any of the above, you will need to submit an appropriate contamination assessment.

16. Trees and Hedges

Are there trees or hedges on the proposed development site? [ ] Yes [x] No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? [ ] Yes [x] No

If Yes to either or both of the above, you will need to provide a full Tree Survey, with accompanying plan before your application can be determined. Your Local Planning Authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'.

17. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? [ ] Yes [x] No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

18. Residential Units (Including Conversion)

Does your proposal include the gain, loss or change of use of residential units? ☐ Yes ☒ No
If Yes, please complete details of the changes in the tables below:

COUNCIL
PLANNING DIVISION
PLAN No. A/0/0217/08
RECEIVED 21 APR 2008

40 The Gardens, Southwick – Design and Access Statement

Introduction

Located in Southwick, 40 The Gardens is a post war semi detached dwelling. The ground floor of the dwelling comprises; Kitchen, dining room, lounge and Bathroom. The first floor has three bedrooms.

The property is of traditional cavity brickwork construction. The external walls are rendered and pebble dashed. The dwelling sits within a reasonably large corner plot and currently has a driveway to one side.

The property forms part of a larger estate of similar dwellings, some of which have already had a similar extension.

We act on behalf of Adur District Council; the works have been deemed necessary disabled adaptations.

The Design

The proposed works will entail the construction of an extension over the existing bathroom and store. The new extension is to be constructed in timber with a render system to match existing. The new extension has been deemed necessary in order to provide a WC facility to the first floor.

The new extension will have a pitched roof again matched in to the existing roof line; the new area of roofing will be tiled with plain tiles to match existing.

The windows of the property have been modernised sometime in the past and the dwelling currently has double glazed PVCu windows throughout. The proposed extension requires the installation of one additional window which will also be a double glazed PVCu unit.

New rainwater goods and soil pipes will be black plastic to match existing.

Currently the driveway is of little use, there is inadequate space to get a car through the garden wall. The current resident is disabled and therefore we propose that the opening be enlarged to allow a car to drive into the driveway, this will include the dropping of a kerb. In addition we proposed the formation of a ramp from the car parking area up to the landing outside the front door.

To date, we have carried out a number of appraisals and in our opinion the application is sympathetic to the area and respectful to the surrounding buildings. Indeed many of the adjacent buildings have similar extensions to the side.

Social Context

One would hope that the proposed extension would have very little social impact. Whilst the proposed extension will alter the elevation, the extension does not extend the original footprint of the dwelling. Other properties in the vicinity also have a similar extension.

Economic Context

The proposed extension will use materials sourced locally as far as possible and also rely on the local trades and craftsmen for the construction phase.

Planning Policy

The proposed extension falls within permitted development.

Amount

The existing net external area the property is currently 110m². The proposed extension will provide an additional 10m² of living space.

Layout

The proposal includes some minor alterations to one of the bedrooms; this requires the installation of a velux roof light.

The factors behind the proposed new layout out include easy access to and from the WC; currently the only WC is located on the ground floor.

The design is intended to provide the resident with a WC and potential washing facilities on the first floor.

Scale

The works are relatively small in scale full consideration has been given to minimise the aesthetic impact on the building as a whole and the surrounding area.

Landscaping

Some minor landscaping is included in the proposal; this will be in the form of alterations to the front garden of the property to allow easier access to and from a vehicle and the front door.

Appearance

Visually, the form of the building will be altered. However the new extension will as far as possible be sympathetic to the surrounding buildings.

The extension will be rendered to match in with the existing building and have matching roof tiles and rainwater goods.

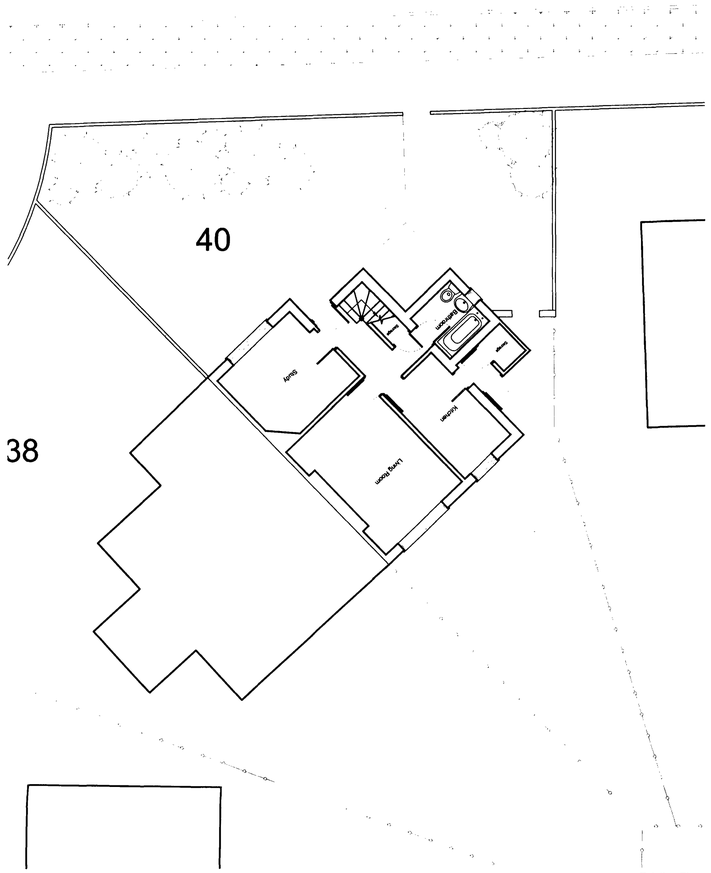

Access

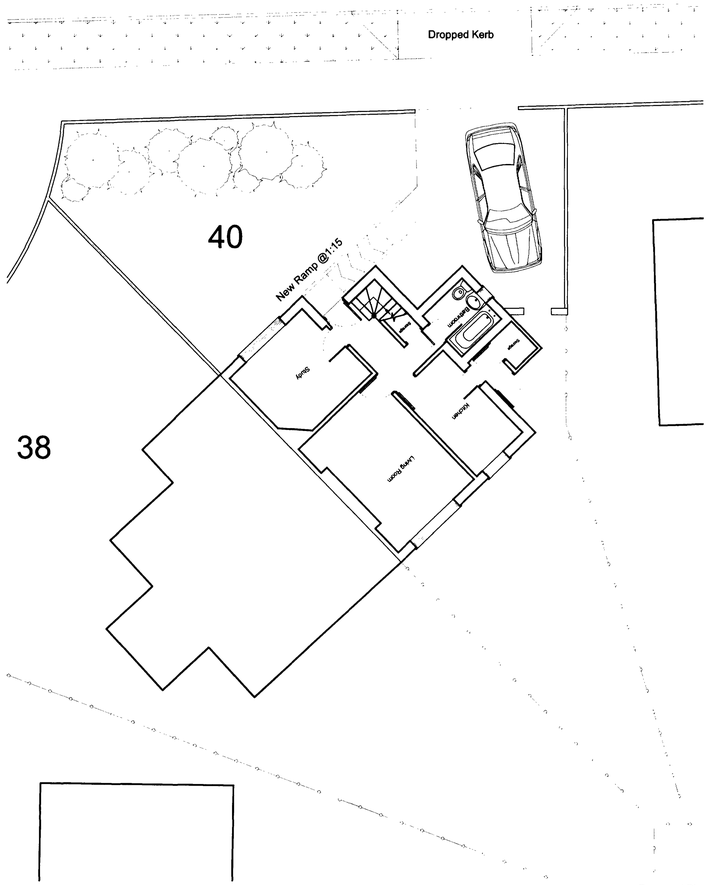

These works form part of a disabled adaptation package under instruction from Adur District Council.

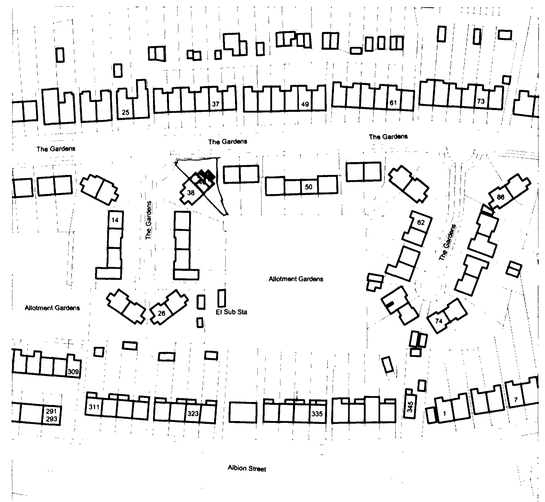

It is proposed that the vehicular access is altered to allow a vehicle to park on the drive. This will entail the formation of a dropped kerb (highways have been contacted). In addition to this a new ramp is proposed to allow access to the front door.

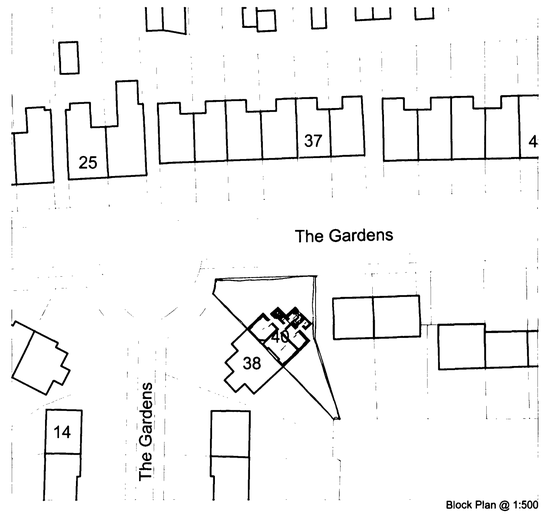

In terms of accessibility the dwelling currently has one bathroom located on the ground floor; this has been deemed inadequate for the current resident. It is therefore proposed that an additional WC is provided for the resident on the first floor. In order to facilitate this some alterations to the head of the staircase is also required to allow level access in and out of the new WC.

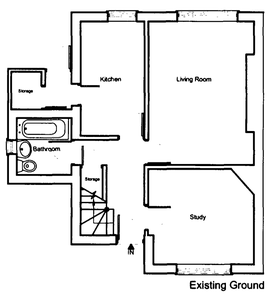

The proposed layout will potentially improve the inclusive access within the dwelling. The level access to and from the front garden will be of great benefit to the current resident.
