Comments: It's so important to support spaces like Worthing United Football Clubhouse. This isn't just about a café, it's about creating opportunities for young boys and girls to stay active, connected, and part of something positive, while also strengthening the wider community.

The vision to generate income that goes straight back into the club and local park is exactly what grassroots community work should look like - sustainable, inclusive, and focused on giving back. It will make a real difference not just to the players, but to families and the whole area.
