20th July 2012

Dear Sir

Ref: AWDM/0823/12

I am in receipt of your letter dated 9th July 2012, advising me of the Planning Application for a Roof Extension to No. 6 Osborne Drive.

This property is immediately opposite my bungalow which is a corner plot. I have a small enclosed rear garden that I enjoy relaxing in. If you permit this extension I will lose all privacy as the dormers are obtrusive and overlook my property.

I understand one of the dormers is to be in the main bedroom and the bathroom which requires obscure glass. In view of this may I suggest Velux Windows which would blend into the roof tiles and be less invasive, after all Osborne Drive is semi-detached bungalows all inhabited by retired folk.

I would ask you to seriously reconsider this application which will totally spoil the appearance of the drive and lives of the neighbours who have expressed surprise that this type of expansion should be considered.

Yours faithfully

Mrs. M. Sweet [redacted]
