23rd July 2012

Dear Mr Barnett,

It has recently been brought to my attention that the occupants of 6,Osborne Drive have submitted radical plans to your department to drastically alter their address.
I feel somewhat put out by the fact I wasn't informed of these proposed plans by the Housing Department, but by a neighbour!
I have lived at this address for the past 2 ½ years as a tenant.
I would like my objections to these proposed plans to be officially recorded for the following reasons :-
I am a night worker, working 5-6 nights during the week, and I certainly do not wish to have to live opposite a building site, with lorries coming and going at all times of the day right outside my window,especially when I am trying to sleep.
The last time these occupants had extensive building works being done, I regularly had lorries and cars blocking my personal drive. I could not get out !
From an unselfish point of view, Osborne Drive is a quiet residential street occupied mainly by the elderly. The proposed plans do not, I would suggest, fit in with with the rest of the properties in the street, and would stick out like a sore thumb.
Should you wish to speak with me, please contact me at the above address.

Kind regards

Karen MARCH
