Business Support

Dear Sirs

We write with regard to the above planning application.

We wish to formally object to this application due to location of the building, being within 25 feet of our home and backing onto the gardens that are the only communal area available to residents of our block of flats.

We also object to the possibility of noise generated by the equipment used and timescales of business including evening and weekend visitors.

We believe this business is not in keeping with local communities and residents needs and privacy.

With this in mind we respectfully ask you reject this application

Regards

Mr & Mrs Downie
