Waste & Recycling Stores

PBM wasteSTOR Waste stream enclosures for 660L - 1280L bins

Product Overview

PBM wasteSTOR encloses your four wheeled waste and recycling bins leaving no space for refuse to be deposited outside of the receptacle provided. Warden or specific resident controlled door systems keep the bin secure while the door aperture and locking options prevent unauthorised usage or contamination of recyclables containers. Associated anti-social behaviour and costly unscheduled waste removal visits are both avoided with PBM wasteSTOR.

Designed specifically for challenging urban environments, robust construction and component longevity are fundamental to all metroSTOR products. A fully welded mild steel frame, highly durable coatings, heavy duty components and low-maintenance cladding materials are proven to ensure many years of trouble-free service. Their smart appearance and low physical profile enable PBM wasteSTOR recycling centres to be created in spaces that may not have previously been considered.

You can specify PBM waste STOR with a number of cladding types that include HDPE recycled plastic and Fire Retardant coatings. Chose from three door options available; 'load-over' type, full height lockable or with recycling chutes to suit your operation.

PBM wasteSTOR unit doors are fitted with a stainless steel aperture lining for easy cleaning of door panels and to provide a prominent logo display area. All wasteSTOR units have WRAP signage panels on the gate section and these can be removed / replaced from inside as alternative waste streams dictate

Product Availability

Model	Bin Configuration Options per Unit	Single Unit Dimensions		
PBMN 1	1no. 660L 4-wheeled bin	870mm (D)	1450mm (W)	1816mm (H)
PBM 1	1no. 770 L / 1100L / 1280L 4-wheeled bin	1330mm (D)	1550mm (W)	1816mm (H)
PBMN 2	2no. 660L 4-wheeled bin s	870mm (D)	2850mm (W)	1816mm (H)
PBM 2	2no. 770 L / 1100L / 1280L 4-wheeled bins	1330mm (D)	3100mm (W)	1816mm (H)
PBMN 3	3no. 660L 4-wheeled bin s	870mm (D)	4350mm (W)	1816mm (H)
PBM 3	3no. 770 L / 1100L / 1280L 4-wheeled bins	1330mm (D)	4650mm (W)	1816mm (H)
PBMN 4	4no. 660L 4-wheeled bin s	870mm (D)	5700mm (W)	1816mm (H)
PBM 4	4no. 770 L / 1100L / 1280L 4-wheeled bins	1330mm (D)	6200mm (W)	1816mm (H)
PBMN 5	5no. 660L 4-wheeled bin s	870mm (D)	7125mm (W)	1816mm (H)
PBM 5	5no. 770 L / 1100L / 1280L 4-wheeled bins	1330mm (D)	7750mm (W)	1816mm (H)
PBMN 6	6no. 660L 4-wheeled bin s	870mm (D)	8550mm (W)	1816mm (H)
PBM 6	6no. 770 L / 1100L / 1280L 4-wheeled bins	1330mm (D)	9300mm (W)	1816mm (H)

Product Options

Door Type

FH Full height locking
GWA General waste loading aperture
RWA Recycled waste loading aperture

Locking System

MPL Magnetic latch
MPLL Magnetic locking latch
SPL Springbolt latch + handle
SBL FB2 Springbolt latch + FB2 fire brigade key operation
SBLD Gatelock - Handle latch / Eurocylinder deadlock operation
DGL5 Gatelock - Autolatch / Digital keypad deadlock operation

Panel / Door Cladding Type

PSE ST Planed square edge timber plank
PSE IC Planed square edge timber plank + intumescent coating
PSE WS Planed square edge timber plank + woodstain system
PSE CD Planed square edge Western Red Cedar plank
PSE IR Planed square edge Iroko hardwood plank
RSE BK HDPE Recycled plastic board - black
RSE BR HDPE Recycled p\lastic board - brown
MSG P Perforated steel panel plain galvanised
MSG C Perforated steel panel powder coated RAL9005 black
FRC BK Fibre composite board
