

Existing Elevation @ 1 : 20
No works proposed to rooflight

Drawing to be read in conjunction with photographic window and door schedule
Door D1 to be replaced. New door to be 44mm-thick solid hardwood. Traditional stile and rail construction, with 4" (102mm) heavy duty ball bearing hinges. See image adjacent. New door to have painted finish.
Windows W4 (3no.) and W11 to be replaced. Refer to drawing FB26-0207 DT01.
All other windows and doors to be retained. Paintwork to be stripped and timber sanded back to create a key. Rotten areas to be carefully cut out and new softwood replacement 'patches' to be fitted to match existing, or holes to be filled with flexible filler to allow for expansion and contraction. Woodwork to be finished with 1no. coat of primer, 1no. coat of white undercoat, 2no. coats of white gloss.

Rev. A 21.07.26 Proposed fenestration moved to new drawing FB
