RE: AWDM/1210/23 – 250 Harbour Way, BN43 5HZ – Remodelling

Dear Adur & Worthing planning department

I am taking this opportunity to extend my wholehearted endorsement for the residents of 250 Harbour Way, Shoreham by Sea, BN43 5HZ. Having carefully reviewed the submitted plans, it's evident that the proposed development seamlessly integrates into the unique tapestry of architectural styles along Harbour Way and Old Fort Road. The aesthetically pleasing design of the building assures me that its visual impact will be minimal, blending harmoniously with the existing landscape. Given the array of houses with a similar aesthetic lining Harbour Way, it's indisputable that this development does not transgress into overdevelopment and maintains amicable coexistence with the neighbouring properties.

Yours sincerely
