Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	I strongly object to this variation. The original planning application for this development that was passed at a public hearing agreed to this development based on the understanding that window obscuring would be applied to the whole north elevation in order to protect the privacy of neighbouring 2 Ravens Road and other properties in the proximity. This new application for removing obscuring from the transom windows completely goes against what was publicly agreed by the planning committee. The removal of trees will also contradict the original application. The proposal applicant has already agreed to not make the above changes and retain all of the original obscuring design. I would like this to be officially confirmed on this planning portal.
