re: planning application for 10 Shingle Road

Having been contacted by Helen Olsen from the above address regarding her application I would like to make it known that, after taking a detailed look at her plans, we have absolutely no qualms about the extension and alterations to her property. She has made every effort to make sure that our home is not overlooked and our views are not restricted and we support her 100% in her quest to remain part of the beach community. Also, as a mother myself, I fully understand the changes that she has to make in order to give her children the best family life possible in their circumstances and cannot see that these changes will affect the neighbours in any way.
I hope that you will take into consideration the feelings of her immediate neighbours and allow them to continue with their plans at your earliest convenience. Please feel free to contact me on my mobile number [redacted] if you have any questions.
Thanking you in anticipation.
Yours sincerely
