RE: Planning Application AWDM/1110/15, AWDM/1112/15 29 Firle Road

We, the owners of 45 Derek Road, object most strongly to the above plans.

In particular to AWDM/1110/15 a double garage in the FRONT garden built on rising ground with study/storage games room above, including a south facing window and a very high apex to the roof imposing on our privacy.

Not only is the elevation of this planned building liable to greatly impact on our lower elevated property, but it will also spoil the landscape and further not be consistent with other properties in this area.
