## 1 Introduction

1.1 This planning application is submitted on behalf Roffey Homes Ltd. It relates to land at 84 – 92 Heene Road, Worthing, where planning permission has been granted for the erection of 23 flats with associated parking and access arrangements.

1.2 Planning permission no. WB/03/00842/FULL was granted on 1st March 2004 subject to 16 planning conditions. Subsequently, on 13th December 2004, the Borough Council granted revised details in relation to one of the two proposed apartment blocks. Although this was the subject of a separate planning permission (no. WB/04/01147/FULL) and the decision notice lists the approved amended drawings, it is directly linked to planning permission no. WB/03/00842/FULL by condition. Indeed, the single planning condition imposed on the revised scheme (in relation to apartment Block A) confirms that the development can only be carried out in accordance with the conditions imposed on the original consent.

1.3 The revised planning permission also had the effect of amending planning condition 14 of the original planning permission in relation to the scheme drawings approved by the Borough Council as part of the redevelopment scheme.

1.4 This Planning Statement accompanies a planning application which seeks to vary planning condition no. 3 of the original planning permission in order to provide for alternative parking arrangements and in particular, the deletion of the previously approved basement parking level. These revised parking arrangements will require minor elevational changes at the rear of the 'Block A' apartment building and therefore, a separate 'non-material amendment' application has also been submitted in relation to the revised planning permission.

1.5 In addition to describing the nature of the proposed changes, this Planning Statement explains the planning considerations that have

been taken into account in preparing and submitting the planning application. The final section contains a summary of the reasons for granting permission for the alterations sought.

## 2. The Proposed Amendments

2.1 This application is accompanied by drawing no. 4387/17A. Elevational drawing no. 4387/18A has been submitted for information only. These are 'comparative' drawings showing both the site layout and elevational details (of apartment building A) as approved together with the revisions as now proposed.

2.2 As shown on drawing no. 4387/17A, the proposed changes relate to;

- The omission of the approved basement parking level of apartment building Block A.
- The omission of the approved vehicular access to the basement parking area at the rear of Block A together with the retention of existing ground levels (rather than the lowering of ground levels at the rear as previously approved) and
- The proposed relocation of bin and cycle storage facilities (to the rear of apartment building Block B), as these are displaced by the omission of the basement parking area.

2.3 Although the subject of a separate application for non material amendments and as shown on comparative drawing no. 4387/18A, the revised parking arrangements would also require minor elevational changes comprising;

- The removal of the vehicle entrance to the basement level at the rear and the retention of existing ground levels.
- The insertion of a rear pedestrian entrance door in place of a window in the hallway leading to ground floor flat no. A3 and
- The omission of the balcony to flat no. A3 and its replacement with a ground level patio area.

2.4 Initially, the layout plan drawing permitted as part of planning application no. WB/03/0842/FULL (drawing no. 4387/05G) provided for 24 garages and 2 car parking spaces (a total of 26 car spaces), but this

was subsequently amended in the revised scheme (the subject of planning permission no. WB/04/01147/FULL) to provide 23 garages and 4 car parking spaces (a total of 27 car spaces as shown on approved drawing no. 4387/05J). The proposal is to provide 20 car spaces (including a space reserved for a disabled driver) as shown on the proposed site layout on drawing no. 4387/17A. This drawing also shows the revised position of the proposed cycle and bin storage arrangements to the rear of apartment building Block B.

2.5 Planning permission no. WB/03/0842/FULL is reproduced in appendix 1 attached. Planning condition 3 currently states that;

*"No dwelling shall be occupied until the parking spaces and garages shown on the approved plans have been provided and constructed. The parking facilities and garages so provided shall not thereafter be used for any purpose other than the parking and garaging of vehicles connected with the development".*

2.6 It is proposed that the planning condition should be varied to state that;

*"No dwelling shall be occupied until the 20 parking spaces shown on the proposed site layout drawing no. 4387/17A have been provided and constructed. Once provided, these parking spaces shall not thereafter be used for any purpose other than the parking of vehicles connected with the development".*

## 3. Planning Considerations

3.1 Since the original planning permission was granted in March 2004, the proposed apartment development has been seriously affected by the recession and depressed housing market conditions. The approved redevelopment scheme at 84 – 92 Heene Road would substantially enhance the character and appearance of the site and that of the surrounding area, but although partly implemented, in its present form it is not viable to complete due to the substantial costs associated with the excavation works required to construct the approved basement parking area.

3.2 The site is within a sustainable urban location to the west of Worthing town centre. As demonstrated by the information contained in appendix 2 attached, there are convenient and relatively frequent bus services nearby with good connections to both the town centre and railway stations. The demand for parking spaces on this particular site is therefore, expected to be reduced by its central urban location and ease of access in relation to bus services and other local facilities.

3.3 The apartments have been designed as 'active retirement homes' and although not the subject of any planning limitation, they are likely to be marketed to those of 55 years of age and above. Based upon their experience from developing similar active retired apartment flats elsewhere within Worthing, Roffey Homes anticipate that car use/ownership levels would be relatively low and where garages are provided, they are often used for domestic storage if the owner does not have a car. The deletion of garaging from the scheme can ensure that the car spaces provided are only used for car parking and this can be secured by the varied planning condition.

3.4 Saved Policy TR9 of the adopted Worthing Local Plan sets out various criteria for helping to assess the amount of parking needed to serve new development (based upon maximum standards contained in the Council's Parking Standards and Transport Contributions

Supplementary Planning Guidance published in 2005). The policy confirms that a reduced amount of parking can be permitted on sites within central areas subject to such factors as the availability and proximity of alternative means of transportation.

3.5 The use of such measures as limiting car parking to encourage reduced car use has been carried forward into the Council's Submission Core Strategy (April 2010) in combination with improving walking and cycling networks between the town centre and suburbs (draft Policy 19).

3.6 Although the Coalition Government has recently announced that 'maximum' parking standards should no longer apply, there remains a commitment to encourage reduced car use for environmental reasons. In addition, while PPG13 (Transport) has recently been partly amended, there remains a national commitment that developers should only provide as much parking as they consider appropriate and necessary to serve development proposals.

3.7 The amount of parking would be reduced from a total of 26 car and garage spaces as originally approved (or 27 as approved in the revised scheme) to 20 car spaces. This would however, remain sufficient to serve the proposed development in light of the factors referred to above. The spaces would only be used for the parking of cars (as no garages are now proposed) and existing on-street parking restrictions around the site would continue to discourage any long term over-spill parking from the site (as illustrated by the annotated map contained in appendix 3 attached, Heene Road is within the Controlled Parking Zone, which operates in and around Worthing Town Centre).

3.8 The proposed revised location for the bin and cycle storage (shown on drawing no. 4387/17A) would be no less convenient than its original approved location within the basement area of Block A and, in its revised position, it would remain concealed from any public viewpoints. The refuse/recycling bins would be stored within an enclosed

compound area which would prevent any unacceptable loss of amenity to neighbouring occupiers.

## 4. Reasons for Granting Planning Permission

4.1 Circumstances relating to the viability of the completion of 23 flats on the site have been seriously affected by the recession and depressed housing market. The construction of basement parking below apartment Block A on the site would in particular, require both costly excavations and construction As well as creating the additional expenses of disposing of excavation material off site.

4.2 This significant constraint can be overcome by deleting the approved basement parking and retaining the existing ground levels. While the amount of parking provision would be reduced from 26/27 to 20 spaces, no garages would now be included. This would enable an amended planning condition to ensure that all the space provided is utilised for car parking.

4.3 The site is within a central urban location with easy access to bus services and facilities and while national planning guidance has moved away from setting maximum car parking standards, there remains a need to encourage reduced car use for environmental reasons. From experience, the Developer is satisfied that sufficient parking space will be provided to meet the target market of retirement housing and the revised cycle and bin storage arrangements will not give rise to demonstrable harm.

4.4 The proposed variation to condition no. 3 of planning permission no. WB/03/00842/FULL would enable the redevelopment scheme to be completed so as to enhance the appearance of the site and make a positive contribution to the street scene.

PROPOSAL: Demolition of existing buildings and erection of 23 flats with associated parking and access

LOCATION : 84-92 Heene Road Worthing

DATE REGISTERED 14th July 2003

APPLICANT : Roffey Homes Ltd

WORTHING BOROUGH COUNCIL, under the above Act and Order, gives you notice that its decision upon your application described above and in plans which accompanied the application, or as subsequently amended prior to consideration, is to

**GRANT PERMISSION subject to the following conditions:-**

1. The development hereby permitted shall be begun before the expiration of five years from the date of this permission.

   Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

2. No development shall take place until details of the screen walls and fences have been submitted to and approved in writing by the Local Planning Authority. No dwelling shall be occupied until such screen walls or fences as may be agreed have been erected.

   Reason: In the interests of amenity.

Cont...

Dated : 1st March 2004

Assistant Director (Planning Services)

**Note: Your attention is drawn to the notes and information overleaf.**

3. No dwelling shall be occupied until the parking spaces and garages shown on the approved plans have been provided and constructed. The parking facilities and garages so provided shall not thereafter be used for any purpose other than the parking and garaging of vehicles connected with the development.

   Reason: To ensure that adequate provision is made for parking vehicles clear of the highway.

4. The building shall not be occupied until the crossing between the boundary of the site and the adjoining carriageway has been laid out and constructed to a specification to be agreed in writing with the Local Planning Authority.

   Reason: In the interests of highway safety.

5. The access from the site to the public highway shall be designed, laid out and constructed with visibility splays and sight lines in accordance with plans and details to be submitted to and approved in writing by the Local Planning Authority before any building or use authorised by this permission is commenced.

   Reason: In the interests of highway safety.

6. No development shall take place unless and until a scheme for the suppression of dust during demolition and construction has been submitted to and agreed in writing by the Local Planning Authority. The scheme as may be agreed shall be implemented throughout the entire course of demolition and construction unless otherwise agreed in writing by the Local Planning Authority.

   Reason: To safeguard the amenities of the occupiers of neighbouring properties.

7. No work for the implementation of the development hereby permitted shall be undertaken on the site on Sundays or on Bank or Public Holidays. On all other days such work shall only be implemented between the hours of 8.00 a.m. and 6.00 p.m. inclusive.

   Reason: To safeguard the amenities of the occupiers of neighbouring properties.

Cont...

Heene Rd

WB/03/00842/FULL

8. No development shall take place unless and until there has been submitted to and approved in writing by the Local Planning Authority a scheme of hard and soft landscaping, which shall include indications of all existing trees and hedgerows on the land, and details of any to be retained, together with measures for their protection during the course of development. All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the buildings or the completion of the development, whichever is the sooner. Any trees or plants which, within a period of 5 years from the completion of the development, die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation. All hard landscaping shall be provided prior to the occupation of the development hereby permitted.

Reason: In the interests of amenity and of the environment of the development.

9. The development hereby permitted shall not commence unless and until a schedule of materials and finishes to be used for the external walls and roof of the proposed building have been submitted to and approved in writing by the Local Planning Authority. Thereafter, the development shall be completed fully in accordance with the agreed materials.

Reason: In the interests of visual amenity.

10. The windows on the south elevation of Block A hereby permitted shall be obscure glazed and fitted with restricted opening to prevent overlooking with precise details to be submitted to and approved in writing with the Local Planning Authority. The approved windows shall be installed in accordance with the approved details and shall not subsequently be altered in any way without the prior consent of the Local Planning Authority in an application on that behalf.

Reason: To protect the amenities and privacy of the occupiers of the adjoining property.

11. Provision shall be made for combined aerial facilities to serve all flats within the development hereby permitted.

Reason: In the interests of visual amenity.

12. The development hereby permitted shall not commence unless and until details of the proposed foul and surface water drainage and means of disposal have been submitted to and approved in writing by the Local Planning Authority. No building shall be occupied until all drainage works have been carried out and completed in accordance with such details as may be approved by the Local Planning Authority.

Cont...

Reason: To ensure that the proposed development is satisfactorily drained.

13. Before any of the dwellings hereby permitted are occupied, drying areas and dustbin enclosures shall be provided in accordance with details to be submitted to and approved in writing by the Local Planning Authority.

Reason: To safeguard the appearance of the development and the amenities of the area.

14. This permission relates to the amended plans submitted on 14 November 2003 and not to the plans originally submitted.

Reason: For the avoidance of doubt and because the scheme as originally submitted was unacceptable to the Local Planning Authority.

15. The design and siting of the bay windows and the precise design of the dormer windows on the front elevation of Block A are not hereby approved. Prior to the commencement of development revised plans shall be submitted to and approved in writing with the Local Planning Authority.

Reason: The submitted plans are not considered acceptable in relation to these elements and would affect the overall design quality of the development.

16. The design of the dormer window on the west elevation (2 ½ storey element), porch and two storey bay feature on Block B are not hereby approved. Prior to the commencement of development revised plans shall be submitted to and approved in writing with the Local Planning Authority.

Reason: The submitted plans are not considered acceptable in relation to these elements and would affect the overall design quality of the development.

INFORMATIVE

The decision to grant planning permission has been taken having regard to the policies and proposals in the adopted Worthing Local Plan 2003, the adopted West Sussex Structure Plan 1993 and the West Sussex Structure Plan 2001 – 2016 Deposit Draft set out below, and to all relevant material considerations, including Supplementary Planning Guidance:

**Adopted Worthing Local Plan 2003**

BE1 – Design Quality
BE2 – Materials and Detailing
TR9 – Parking Requirements for Development
H2 – Housing Mix and Density
H18 – Amenity of Residents

**Adopted West Sussex Structure Plan 1993**

G1 – The primary importance of protecting and improving the environment
G5 – Design and impact of development
B2 – Town Cramming
T14 – Access requirements for development
H3 – Dwelling size

**West Sussex Structure Plan 2001 – 2016 Deposit Draft**

CH1 – Character
DEV1 – High quality development
DEV4 – Travel needs and choices
DEV5 – Parking provision

This information is only intended as a summary of the reasons for grant of planning permission. For further details on the decision please see the application report which is available from the Planning Reception at Portland House, Richmond Road, Worthing.

**APPENDIX 3**

# On-Street Parking in Worthing Town Centre

## Introduction

The Controlled Parking Zone (CPZ) was introduced on 8th November 1996, following detailed consultation with the residents and businesses of Worthing.

The CPZ is designed to prevent all day on-street commuter parking, making it easier for residents, visitors and shoppers to park, enhance road safety, and remove obstructions to private accesses by eliminating indiscriminate parking. The CPZ includes the whole of the town centre and some surrounding residential areas, and operates using a permit and pay & display system.

## How The Controlled Parking Zone (CPZ) Works

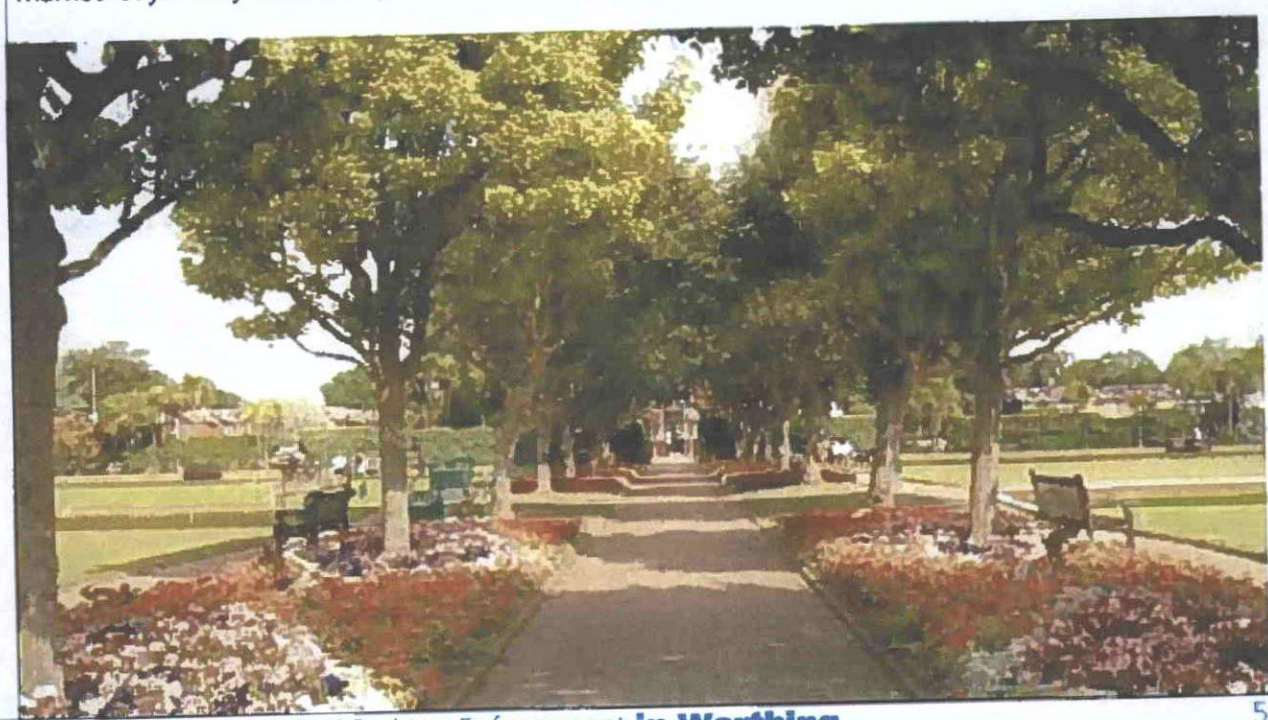

CPZ signs are located at all inner and outer area entry points. These inform motorists of the hours during which parking is controlled in the area they are entering.

The hours of parking control vary according to the area. In the more central areas (zones A, B and C) the hours are 9.00am to 6.00pm, Monday to Saturday. In the outer areas (zones D to L) they are 10.00am to 11.00am and 2.00pm to 3.00pm, Monday to Saturday (i.e. 2 hours each day).

During the hours of control, parking is permitted only in designated parking bays (marked with white lines), by displaying pay & display tickets, parking vouchers or permits. Signs are positioned adjacent to all parking bays showing the hours of parking control, type of parking permitted, the time limit applicable and the cost per hour, where there is a charge.

Outside the hours of control, parking is not restricted in bays or on single yellow lines unless specifically indicated by a statutory yellow time plate. Parking should not take place where it would endanger or inconvenience pedestrians or other road users. Double yellow lines apply at all times.

Motorcycles and scooters do not require a permit or pay & display ticket, but must park within the marked bays. They must also park considerately between residents' cars.

# Parking in Worthing

Where to park and Civil Parking Enforcement in Worthing

## Where to park and how to pay

The map shows the area where parking is available in the Controlled Parking Zone, and will help you identify the most suitable area for you to park. The colour index shows locations of council car parks. Once you arrive at your destination, check the parking sign beside the bay to make sure you can park in the area (the more complicated signs are explained in this guide).

If you would like to view plans of the parking restrictions that are in place in your road or area in greater detail, you may do so by logging onto the County Council's website. Please go to www.westsussex.gov.uk/roads-and-transport/motor-vehicle-parking/parking-regulation-order-tro-map/
