Re: Proposed 4no. three bedroom two storey detached dwellings including new access from Gardener Street and alterations to public footpath (Former Manor Hall Nursery). | Land East Of 24 To 30 Manor Close Gardener Street Portslade Brighton & Hove

I have already appealed with my neighbours against this application, however I would like to add a few more comments.

During the last 2 years, our neighbour number 30 has been carrying out some renovations.

[redacted]

During the building work next door, my husband often experienced bouts of breathlessness and chesty coughs and we had to close the windows and resort to using the oxygen tanks. This didn't always solve the issue due to the dust particles and that there I a general requirement of ventilation needed in any hone especially during the warmer months.

The second issue is that we would like to move within the next 18 months to somewhere that has a larger ground area and less trip hazards. Building work in our existing home is not a viable due to my husband's condition, even paint fumes exacerbate his symptoms.

Owing to the proposed development we would face a depreciation in the value of our home. Financially we have been left in difficultly owing to my husband's ill health and we cannot afford this devaluation.

Anyone is very welcome to come to our home, meet my husband and look at his medical records which we have available.

I would ask that you could forward my concerns directly to those who have applied for this planning application and hope that they will show compassion.

Kindest regards

Elena Busst
