Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I support this planning application because it will help provide much-needed new housing for the local community. There is a clear need for additional homes, and this development represents an opportunity to meet that need while making effective use of the site. The proposed development has been designed in a way that is compatible with the

surrounding area. It has the potential to enhance the local environment, bring investment into the community, and create a well-planned neighbourhood for future residents. While it is important that the development is carried out with appropriate attention to traffic, landscaping, drainage, and environmental considerations, I believe these matters can be addressed through planning conditions. Overall, I believe the benefits of providing new homes outweigh any potential drawbacks, and I support the application.

Kind regards
