I know I'm a bit late but I am concerned that a wooden structure within three feet of my property is a fire hazard

I have a side building right next to courtlands hedge and am really worried about the closeness will this be taken into consideration

Also I heard yesterday that Courtlands are having 16 more pupils starting in September how can that be if planning hasn't been passed yet ?

Sorry to be a nuisance but I just feel Courtlands do exactly as they want

Kind regards

Monica
