pbarnettDevelopment Management - Delegated Officer Report

Application Number: AWDM/1551/23 Recommendation – APPROVE

Site: 147 Greenways Crescent, Shoreham-by-Sea, BN43 6HP

Proposal: Application for a Lawful Development Certificate for rooms in roof consisting of hip to gable, flat roof dormer and front rooflights.

Date of site visit: Assessment has also been assisted using the Applicants plan; Earthlight mapping; and Google 3D of the site

Neighbours checked: Y

Additional neighbour notifications: N

Site and Surroundings:

The property is a semi-detached, hipped roof, two storey dwelling, positioned the closed end of a cul-de-sac section of Greenways Crescent, in Shoreham.

The dwelling has two existing rear single storey extensions, one built on the back of an earlier one. And also has a pitched roof garage onto the boundary with no. 149.

The street is characterised by predominantly two storey dwellings in semi-detached, form. Many with rear extensions and/or rear dormers and some have front dormers and some have front rooflights.

The site is not a Listed Building or within a Conservation Area.

Relevant Planning History: N/A

Proposal:

A Certificate of Lawfulness is sought for a:-

- Hip to gable roof extension;
- A flat roof rear dormer;
- 2no. rooflights to front roofslope; and
- 1no. window within resultant gable end.

Planning Assessment

Consideration

Schedule 2, Part 1, Development within the curtilage of a dwellinghouse.

Class B – additions etc. to the roof of a dwellinghouse

Permitted Development

B The enlargement of a dwellinghouse consisting of an addition or alteration to its roof

Development not permitted

B.1 Development is not permitted by Class B if:-

a) The dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q.

Analysis: The dwellinghouse has not been created through change of use by virtue of Part 3.

b) The height of the roof extension would exceed the highest part of the existing roof;

Analysis: The ridge height of the hip to gable roof extension will be the same height as the existing roof ridge and therefore does not exceed the height of the highest part of the existing roof; and the flat roof of the rear dormer is below the highest part of the existing roof.

(c) the roof extension would extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway;

Analysis: the hip to gable will be to the side roof section, and does not extend beyond the plane of the existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway; the rear dormer will not be onto the principal elevation etc.

(d) the cubic content of the resulting roofspace would exceed the cubic content of the original roof by more than:-
i) 40 cubic metres in the case of a terrace house, or
ii) 50 cubic metres in any other case.

Analysis: The submitted plan has been notated with the proposed cubic capacity and states that the volume calculation of the hip to gable would be $16m^3$ and the rear dormer would be $21.2m^3$ making the total proposed volume to be $37.2m^3$.
The allowed $50m^3$ is thereby not exceeded.

(e) it would consist of or include:-
i) the construction or provision of a verandah, balcony or raised platform, or
ii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe;

Analysis: None of the above

(f) the dwellinghouse is on article 2(3) land

Analysis: The dwelling house is not on article 2(3) land.

(g) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses); or

Analysis: The dwellinghouse has not been created by virtue of Part 20.

(h) the existing dwellinghouse has been enlarged in reliance on the permission granted by Class AA (enlargement of a dwellinghouse by construction of additional storeys).

Analysis: The above does not apply.

B.2 Development is permitted subject to the following conditions:-

(a) the materials used in any exterior work must be of similar appearance to those used in the construction of the exterior of the existing house;

Analysis: A submitted document states that the proposed materials are to match the existing.

(b) the enlargement must be constructed so that:-

i) other than in the case of a hip-to-gable enlargement which joins the original roof to the roof of a rear or side extension –

(aa) the eaves of the original roof are maintained or reinstated; and

(bb) the edge of the enlargement closest to the eaves of the original roof is, so far as practicable, not less than 0.2m from the eaves, measured along the roof slope from the outside edge of the eaves, and

ii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension no part of the enlargement extends beyond the outside face of any external wall of the original dwelling house.

Analysis: A submitted document confirms that the dormer will be set back a minimum of 200mm from the existing eaves.

c) any window inserted on a wall or roof slope forming a side elevation of the dwelling house must be:-

i) obscure glazed and
ii) non-opening unless the parts of the window which can be opened are more than 1.7m above the floor of the room in which the window is installed.

Analysis: There will be a new window in the side elevation of the gable, and the submitted document states that the window will be obscured glazed, an email from the agent dated 10.01.2024 confirms that the window will be fixed to be non-opening.

Class C – other alterations to the roof of a dwellinghouse

Permitted development

C. Any other alteration to the roof of a dwellinghouse.

Development not permitted

C.1 Development is not permitted by Class C if—

(a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q of Part 3 of this Schedule (changes of use);

Analysis: The dwellinghouse has not been created through change of use by virtue of Part 3.

(b) The alteration would protrude more than 0.15 metres beyond the plane of the original roof when measured from the perpendicular with the external surface of the original roof;

Analysis: The submitted document states that the proposed rooflights will not protrude more than 150mm above the existing plane of the roof.

(c) It would result in the highest part of the alteration being higher than the highest part of the original roof;

Analysis: The rooflights etc., will not be higher than the highest part of the original roof, namely the ridge.

(d) It would consist of or include—

(i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or

(ii) the installation, alteration or replacement of solar photovoltaics or solar thermal equipment.

Analysis: None of the above are shown on the submitted plans

(e) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses).

Analysis: The above does not apply

Conditions

C.2 Development is permitted by Class C subject to the condition that any window located on a roof slope forming a side elevation of the dwellinghouse must be— (a)

obscure-glazed; and (b) non-opening unless the parts of the window which can be opened are more than 1.7 metres above the floor of the room in which the window is installed.

Analysis: There will be a new window in the side elevation of the gable, and the submitted document states that the window will be obscured glaze, an email from the agent dated 10.01.2024 confirms that the window will be fixed to be non-opening.

Recommendation

Issue a Certificate of Lawfulness as the proposal is permitted development by Class B and Class C within Schedule 2 Part 1 of Town and Country Planning (General Permitted Development) (England) Order 2015 as amended.

Reasons for Recommendation

The proposal constitutes 'development' as defined by Section 55 of the Town and Country Planning Act 1990, and is permitted by Class B; and Class C of Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended.
