Dear Sirs

Re: Application no. AWDM/0171/14

We refer to your recent notifications of the above application and refer again to our objection dated 28th. February

We object to this application for the following reasons

1) It is an unacceptable intensification of the original approved development of this site which has already had a major negative effect on the local environment.

2P) It will permit the use of even more outdoor pitches at anti social hours with inevitable increased disturbance from both light and noise - It might be claimed that it is sufficiently distant from our property but we can clearly hear noise and see the lighting when the Lancing football club pitch is in use in Culver Road which is significantly further away.

For the above reasons we wish this latest application to be rejected

Yours faithfully

[redacted]

David C. Robertson B.Sc. and Gillian Robertson
