Commenter
Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for
comment:

- Design
- Loss of General Amenity
- Overdevelopment
- Privacy Light and Noise

Comments: Further to the applicants additional comments please see my response.

The property in question is already elevated and this additional floor will be higher than our property therefore looking over us and I dispute there are adequate trees and shrubbery to hide our property from this extension. The extension will be so high this 'screening' mentioned will make no difference.

There are two windows that will look over and into the rear of our property - what these rooms are used for is irrelevant - not sure how the applicant can possibly say it will be 'almost impossible' to look into the rear of our property. This extension will clearly be an invasion of our privacy and is not far enough away to make a material difference to us. The comment regarding one of the windows looking through the gap between the houses maybe the case but assumes anyone looking out is looking in a straight line so again irrelevant.

I would welcome for the Council to visit again to discuss the points raised.
