Comments:	We have concerns about the use of this annexe, as the owner said last year that the intention for the log cabin was to allow friends and family to come and stay. This annexe will be close to our rear fence, and our bedroom is out the back, so any noise will disturb us. Whilst we acknowledge that the application suggests use by a dependent relative that was definitely not what her intention was last year. If this were to be used for family and friends once it is constructed rather than the proposed tenant how do we then raise this, and what will the consequences be? Why does it have to be next to us and neighbours, when there is so much other land with natural light for it to be built on? We have lived here now for over 20 years, and this has the potential to create new noise and disruption out of hours.
