Development Management – Delegated Officer Report

Application Number: AWDM/2023/22 Recommendation: Approve

Site: Garage Block 123 To 139 Wilmot Road, Shoreham-by-Sea

Proposal: Application for a non-material amendment to previously approved AWDM/1434/21. Amendment: to allow demolition to occur prior to conditions 4, 5, 9 and 15 being discharged.

Date of Site Visit: Seen previously

Neighbours Checked: N/A

Additional neighbour notification: N/A

Proposal, Site and Surroundings:

This application, submitted by Adur District Council, relates to 4 blocks of garages on the northern side of Wilmot Road. It is one of a number of garage sites in the District which are being redeveloped for housing by the Council.

Planning permission was granted under AWDM/1434/21 for the Demolition of existing garages and construction of a terrace of 4no. 2 bed dwellings and 1 no. 1 bed wheelchair accessible bungalow and associated works.

This application seeks approval for a non material amendment to the wording of several pre-commencement conditions to enable demolition to occur before the details pursuant to those conditions have been approved.

The relevant conditions are 4 (drainage), 5 (car parking), 9 (landscaping) and 15 (boundary walls/fencing). The wording of those conditions would be amended to allow demolition, site clearance, and site set up to take place.

Planning History:

AWDM/1434/21 - Demolition of existing garages and construction of a terrace of 4no. 2 bed dwellings and 1 no. 1 bed wheelchair accessible bungalow and associated works.

Planning Assessment

Section 96A of the Act allows a non-material amendment to be made to an existing planning permission via an application procedure. There is no statutory definition of 'non-material'. This is because it is so dependent on the context of a particular scheme – what may be non-material in one context may be material in another. In order to grant an application a local planning authority must be satisfied that the amendments sought are non-material. s96A also allows for changes to conditions:

Power to make non-material changes to planning permission

(1)A local planning authority ... may make a change to any planning permission relating to land in their area if they are satisfied that the change is not material.

(2)In deciding whether a change is material, a local planning authority must have regard to the effect of the change, together with any previous changes made under this section, on the planning permission as originally granted.

(3)The power conferred by subsection (1) includes power—

(a)to impose new conditions;

(b)to remove or alter existing conditions.

In this case, the proposed changes are considered to be non material as they do not result in a material change to the character or appearance of the development or to residential amenity. It will allow for allow for demolition to take place ahead of the conditions being discharged.

There is an urgency to commence development, to show a building control 'meaningful start' to works, before the 14th June 2023, so that the scheme can proceed as planned under the existing Building Regulations. If there is no meaningful start to development before the 14th June the applicant, the Council, will incur significant additional costs to reassess the scheme.

Recommendation

APPROVE the non-material amendments to the wording of the conditions of AWDM/1434/21, as follows:

04 No development, aside from demolition, site clearance, and site set up, shall take place until full details of the maintenance and management of the surface water drainage system is set out in a site-specific maintenance manual and submitted to, and approved in writing, by the Local Planning Authority. The manual is to include details of financial management and arrangements for the replacement of major components at the end of the manufacturer's recommended design life. Upon completed construction of the surface water drainage system, the owner or management company shall strictly adhere to and implement the recommendations contained within the manual.

Reason: *To ensure adequate maintenance and management of the surface water drainage system.*

05. No works or development, aside from demolition, site clearance, and site set up, shall take place until the car parking has been constructed in accordance with the approved site plan. These spaces shall always thereafter be kept for their designated purpose.

Reason: *To provide car-parking space for the use.*

09 No development, aside from demolition, site clearance, and site set up, shall take place until full details of all boundary treatment and hard and soft landscaping works and the proposed times of planting have been approved in writing by the Local Planning Authority and all soft landscape works shall be carried out in accordance with those details and at those times. Any plants which within a period of five years from the time of planting die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species unless the Local Planning Authority gives written consent to any variation.

Reason: *To ensure the scheme is adequately landscaped.*

15. No development, aside from demolition, site clearance, and site set up, shall take place until details of all boundary walls and/or fences have been submitted to and approved in writing by the Local Planning Authority and the building shall not be occupied until such walls and/or fences have been erected and they shall thereafter be retained permanently.

Reason: *In the interests of amenity and to comply with policy 15 of the Adur District Local Plan.*
