Dear Mr Hone,

Re: Proposed hip to gable extension with front dormer and rear dormer extension,
186 Downside, Shoreham

With reference to your letter of 29th June and our subsequent telephone conversations regarding the above application, I have discussed this matter with my client and checked the dimensions of the proposed extensions and can confirm that the volume falls within permitted development, I would therefore request that you change the application for planning consent to cover the front dormer only. The remainder of the construction will be built under PD.

I thank you for your kind assistance in this matter.

Yours sincerely
