43 Hurston Close Worthing, West Sussex, BN14 0AX

I am writing to formally apply for the re-crowning of 3 mature Sycamore and 1 Field Maple. trees located on the boundary of my property at **43 Hurston Close Worthing**, West Sussex, BN14 0AX, West Sussex BN14 9QA. These trees have been previously maintained, and I seek permission to re-crown reduce them to their previous pruning points.

The proposed works are as follows:

To all trees

1. **Height Reduction:**
   - Reduce the height of the trees by 2 meters. Current hight 15m

2. **Lateral Canopy Spread Reduction:** Currents spread 12m
   - Reduce the lateral canopy spread by 2.5 meters.

The work will be carried out in accordance with British Standards (BS3998:2010 Tree Work – Recommendations) to ensure the health and safety of the trees and their surroundings.

These measures are necessary to maintain the health of the trees, ensure safety, and enhance the overall appearance of the property. By reducing the crown, we aim to promote better light penetration and air circulation, which are beneficial for both the trees and the surrounding environment.

Please find attached the necessary documents and photographs to support this application. I appreciate your consideration and look forward to your approval. Should you require any further information or wish to inspect the trees, please do not hesitate to contact me.

Thank you for your attention to this matter.
