Reasons for comment:

Comments: I have read this and previous application for this piece of natural countryside.

This application as with the previous others does not fit with the environment or the needs of the local residence or the many hundreds of visitors every day.

The reason for their visit to this area is for it's very natural beauty and non commercialised environment.

There is already a very large area of grass for visitors to enjoy a picnic, for children to play safely and for others to set up paddle boards and kites for surfing and park alongside the road.

Adur & Worthing Councils Mail - Comments for Planning Application AWD/0737/26

I have noticed that all the requests in this application have already been set up and advertised on the land so it appears to be a matter of set everything up and apply and wait for the application to go through afterwards.

If this president of build and then apply for approval is set, then the future of all planning applications will be void.

I strongly object to this application based my comments above.

Kind regards
