Dear Ms Baker,

I hope you are well.

I have reviewed the documents submitted by 15 Winterton Way and consulted an Estimator.

I appreciate they want to extend. It looks like a lovely house.

The build will impact light, privacy and potentially sound as it is adding significant height and windows. Then fence and trees will create less light as south facing. Is there anyone else at the council I should ask more questions to as you are very experienced in these cases.

We are in the centre of the area affected, so we will be the most impacted and it is already a very large development and our garden is pretty small.

In addition re current design and proposed overdevelopment it is making it difficult for us to accept the proposal as it stands.

Thank you for your consideration.

Franck Robert 68 Harbour Way
